

SENATORIAL RACE IS CLOSE

LOSERS' LOSE ELECTIONS IN THREE STATES

California and Wash-
ington Vote Strongly
Against Prohibition

Arizona Ousts Saloons;
Woman Suffrage
Gets Setback

Prohibition was defeated in three
states yesterday, with both sides
claiming victory in two others. Cal-
ifornia and Washington voted strong-
ly against the ousting of saloons.
Arizona voted to go dry. Colorado,
the other western state voting on the
subject, is claimed by both the Anti-
Saloon League and those who favor
saloons.

Who defeated a prohibition
amendment also, but in Illinois
agents of the Anti-Saloon League
asserted they had gained a victory in
electing a state legislature composed
of a majority of prohibition ad-
vocates.

WOMAN SUFFRAGE SETBACK.
Woman suffrage suffered a setback
in the election yesterday, six states
voting against granting the fran-
chise to women and women candi-
dates undergoing defeat at the polls.
In Illinois, where women gained the
right to vote for all statutory officers
only recently, the number of votes
cast by that sex fell off greatly. Ohio,
Missouri, North Dakota, South Da-
kota, Nebraska and Nevada voted
against granting votes to women.

Meager returns from the First Con-
gressional district indicated that Rep-
resentative William Kent, running as
a Progressive and Socialist candidate,
was being hard pressed by Edward H.
Hart (R.). Hart was in the lead at
noon, but he had been favored by the
fact that a majority of the precincts
reporting were in districts regarded as
his strongholds. In no other Con-
gressional district in the state did
either party seem likely to gain or
lose a member of the California dele-
gation, except in the Sixth, where the
race for the seat vacated by Joseph
R. Knowland remained close.

Returns from 534 precincts out
of 455 in the state give the fol-
lowing totals:

United States Senator—Joseph
R. Knowland (R.) 26,598, James
D. Phelan (D.) 27,236, Francis J.
Heney (Prog.) 18,181.

Governor—John D. Frederick (R.)
34,876, John B. Curtin (D.)
12,262, Hiram W. Johnson (Prog.)
50,420.

Lieutenant Governor—John M.
Eshleman (Prog.) 29,073, J. V.
Snyder (D.) 19,796.

Secretary of State—Frank C.
Jordan (R.) 19,329, F. J. O'Brien
(P.) 8335.

Superintendent of Instruction—
Edward Hyatt 12,903, Mrs. N. E.
Davidson 8496.

Chief Justice Supreme Court—
Frank M. Angellotti 13,733, Wil-
liam Conley 11,214.

Associate Justice Supreme
Court—William P. Laylor 11,340,
Lucien Shaw 8345, W. P. James
7443, John D. Murphy 5529.

CONGRESSIONAL RETURNS.
First district—106 precincts out
of 510: Weldon (D.) 1013, Hart
(R.) 4149, Kent (P.) 4180.

Second district—30 precincts
out of 544: Baker (D.) 768, Mat-
lock (R.) and (P.) 321.

Seventh district—21 precincts
out of 556: Church (D.) 2229,
Drew (R.) 1155.

Eighth district—171 precincts
out of 453: Bennett (D.) and
Prog. 1972, Hayes (R.) 3538.

Tenth district—Kettner (D.)
6200, Needham (R.) 2358.

RETURNS FROM SOUTH.
San Diego was one of the first
large counties to send in heavy
figures. These returns gave Johnson
and Heney leading in the fight,
with prohibition well defeated in the
county.

Fresno also offered figures which
upset calculations. Johnson led for
governor on incomplete count, with
Phelan ahead for senator and Heney
second. Prohibition led by two to
one.

Sacramento, on the face of incom-
plete returns, gave Johnson a lead in
the proportion of eight to five over
Fredericks, with Curtin virtually out
of the race, and showed Knowland
to have overcome Phelan's earlier
lead in the county for senator. Pro-
hibition here was beaten two to one.

JOHNSON STRONG IN SOUTH.

(Continued on Page 2, Col. 5.)

JOHNSON'S PLURALITY IS INCREASING

TREASURER KELLY VICTOR; GROSS IS LEADING COOK

With Hiram Johnson re-elected as governor, with prohibition
disposed of as an issue by a decisive adverse vote, and with virtu-
ally all the congressmen returned to their seats, the aftermath
of election in California has become a race for the United States
Senatorship.

Alameda County rallied loyally to its champion, Joseph Rus-
sell Knowland. At 1 o'clock today, on the face of such returns
as were available, Knowland's home county had given him a ma-
jority over both his opponents of 9,256.

Figures from all over the State come slowly, and the posi-
tions of the two leading senatorial candidates verge with each
new total. Knowland has run surprisingly strong in the northern
mountain and coast counties of California. In the south, the
count is slower and this element leaves the situation somewhat
clouded by doubt. James D. Phelan is his close opponent, Francis
J. Heney trailing far beyond.

Returns from 1019 precincts out of 4555 in the State give:
Governor—John D. Frederick (R.) 34,876; John B. Curtin
(D.) 12,262; Hiram W. Johnson (Prog.) 50,420.

United States Senator—Joseph R. Knowland (R.) 26,598; Jas.
D. Phelan (D.) 27,236; Francis J. Heney (Prog.) 18,181.

Prohibition lost decisively even in districts where a vote for
this cause was predicted. Returns piling up today served to in-
crease the majority which the "wets" had accredited themselves
with last night. California stayed wet by a large majority, then.

EIGHT-HOUR LAW LOST.

The eight-hour law lost equally decisively.
The redlight abatement bill seems to have been carried on
referendum, while the bill to abolish prizefights also appears to
have won.

In the county battles George F. Derrick and Arthur Elston
are running close for Congress.

George E. Gross, for county clerk, has apparently defeated
John P. Cook by the tremendous majority of 8000 to 10,000.

Today's returns from the whole state served only to accentu-
ate the victory of Governor Hiram W. Johnson. Progressive can-
didate for re-election, but left the United States Senatorship in
doubt. At noon James D. Phelan's lead had increased to more
than 2000 votes, and was creeping up with a snail's pace. Joseph
R. Knowland, Republican, was in second place far in front of
Francis J. Heney, Progressive.

On the face of the precincts so far counted, which being scat-
tered seem to indicate the trend the election had taken in Ala-
ameda county, most of the county officials being re-elected.

Superior Judges William H. Wast, Everett J. Brown and Wil-
liam T. Harris were retained in office by the tremendous votes
which the primary figures presaged. The final election in these
three offices was, in fact, a repetition of the preliminary contest.

SAMUELS AND SMITH APPARENT WINNERS.

These same precincts indicate the re-election of the two
Oakland police judges, George Samuels and Mortimer Smith, by
majorities of three to one over Cox and Everhart, Socialist nom-
inees.

Three to one is the proportion apparent for George W. Frick,
re-elected county superintendent of schools, over Miss Blanche
Morse of Berkeley.

Dr. Charles L. Tisdale has probably not been re-elected coroner;
incomplete figures collated during the day put Grant D. Miller in
the lead. The issue in this contest may be said to be in doubt at
this hour.

TREASURER KELLY RE-ELECTED.

County Treasurer M. J. Kelly is re-elected by a decisive vote,
the precincts complete agreeing with scattering returns from all
parts of the county. Kelly appears to have carried Oakland, Ala-
ameda city and the country territory, and to have lost Berkeley
two to one.

Assessor C. F. Horner and Auditor E. F. Garrison were re-
elected.

Elston, Progressive, is given a lead over Derrick, Republican,
for congressman from Alameda county in the precincts complete.
The fight is, in fact, doubtful, with both candidates asserting
their election.

William B. Bridge, supervisor in the second district, is behind
Charles H. Heyer of Hayward and his re-election is doubtful.

In the third district, however, Supervisor Joseph M. Kelley
seems to have beaten John Helmstein.

**Russian Forces Are
Recalled From Persia**

By Associated Press.
BERLIN (by wireless), Nov. 4.—A
dispatch received here from Copen-
hagen, according to information given
out in Berlin officially today, says
that the Persian minister to Petro-
grad has demanded the immediate re-
call of the Russian forces of occupa-
tion in Persia.

Russia for some time past has
maintained permanent garrisons in
the northern portion of Persia.

rived at Beirut, Syria, for the pro-
tection of the Christian population.

BOURBONS' MAJORITY REDUCED

Strength in House Dwin-
dles; Progressive Party
Swallowed up.

Republican Gains Are
Made in Every Section
of Country

NEW YORK, Nov. 4.—The Dem-
ocratic party through yesterday's
elections apparently retains control
of both branches of Congress, al-
though gains made by the Repub-
licans in the lower house threaten
to reduce the Democratic majority to
a minimum.

This is the outstanding feature of
yesterday's general election, aside
from which the most significant de-
velopment was the dwindling away
of the strength of the Progressive
party.

Returns from every section of the
country indicate that the Progress-
ives, who cast a larger vote than the
Republicans in 1912, have been
absorbed in large part by that party.
In almost every case there was a
decisive falling off in their vote, with
the exception of California, which
has re-elected Hiram Johnson, its
Progressive governor.

REPUBLICAN GAINS.
Republican gains were made in
every section of the country, and
leaders of that party asserted that
the tariff issue was instrumental in
bringing about that result. Some of
the more optimistic of the leaders
asserted early today that there was
a chance that the Democratic major-
ity in the House of Representatives
would be overturned, but there ap-
peared to be small prospect of such
an outcome.

The result of state elections was
less definite. In a number of cases
Democratic administrations were
overturned, but these were offset by
instances in which the reverse was
the case. Republican leaders were
elated, however, by the showing
made in New York, where District
Attorney Charles S. Whitman was
re-elected.

**WOMAN SUFFRAGE IS
CARRIED IN MONTANA**

CHICAGO, Nov. 4.—The woman suf-
frage amendment in Montana has
been carried by a "safe majority," ac-
cording to a telegram received here
yesterday by Mrs. Medill McCormick,
chairman of the Congressional commit-
tee of the National Woman Suffrage As-
sociation, from Miss Jane Rankin of
Montana, the committee's representative in
Montana.

LONDON, Nov. 4, 4:40 p. m.—Renewal
threats of conscription unless able-bodied
Belgians rally to the aid of the flag, are

**Democratic Committee
Claims Phelan Victory**

WASHINGTON, Nov. 4.—Democratic
National Committee headquarters ad-
vised President Wilson early today its ad-
visers showed the election of James D. Phelan
to the Senate from California, and the re-
election of Senators Shively and Thomas,
Democrats, of Indiana and Colorado.

of National Banks**

WASHINGTON, Nov. 4.—The Com-
ptroller of the Currency today issued a
call for the condition of all National
banks at the close of business Saturday,
October 24.

REPORT GERMANS TO BE RETIRING ALL ALONG LINE

By Associated Press.
LONDON, Nov. 4, 4:40 p. m.—
"The sound of heavy cannon was
distinctly heard at Ghent," tel-
egraphs the Amsterdam corre-
spondent of the Central News,
"and there is every indication
that the Germans are retreating on
the whole front from Bruges to
Tirlich, fifteen miles southeast of
Bruges."

REPEL FIERCE ATTACKS OF GERMANS

By Associated Press.
LONDON, Nov. 4, via Paris,
4:40 p. m.—The Belgian min-
ister of war today made pub-
lic an official report received by
him from Fumes, on the Belgian
coast, halfway between Dun-
kirk and Ostend, the text of
which is as follows:

"Detachments of allied troops
which today pushed ahead as far
as Lombertville, on the Yser
front, below Schoorbeke, failed
to discover any of the enemy.
Only small detachments of ar-
tillery still remain in the direc-
tion of Westende and to the
north and east of Schoorbeke.
Small portions of the enemy's
rear guard are holding several
bridges and farmhouses on the
left bank of the river near
Stuyvenkenskirk.

"An almost unbroken column
of the enemy, composed of all
the divisions of the German army
from Thourout, has marched in an
easterly direction. No forces of
the enemy of any importance
are recorded east of the Yser,
but several supplies trains have
proceeded from Thourout in the
direction of Roulers and Deynze,
on the Lys."

NAVAL OPERATIONS IMPORTANT
LONDON, Nov. 4.—With pressure
on the Franco-Belgian sea coast re-
lieved, interest in London again has
been diverted from land operations
to naval movements.

The daring dash of a German
squadron within ten miles of the
northeast coast of England indicates
the prolonged inactivity of the larger
units of the German fleet has been
broken by a raid on the coast of
England, but that much satisfaction
is expressed that the cruiser Halcyon,
by the clever seamanship of her
commander, escaped from a tight
corner practically unharmed.

Another interesting naval develop-
ment was the long-distance bombard-
ment of the Dardanelles by a com-
bined allied fleet. Athens reports
that seventy shots were fired at the
Turkish forts by the British ships.
The result of the fire is unknown. A
huge pillar of smoke on shore in-
dicated that some of the shells must
have found their mark.

ENEMY TO WITHDRAW.
The official reports from Belgian
headquarters are becoming more
positive in their assertions that the
enemy is preparing to withdraw from
his hard-won position on the South-
west coast of Belgium. No report has
been received, but not before the
enemy had made an unprofitable raid
on the coast of England.

The battle of the sea, it is now
believed, is a tactical success for the
allies. It is considered that the Ger-
man fleet is now in a position to
move in that direction, as the
bombing of the country has made it
impossible for them to hold a large
ground.

In the east Emperor Nicholas has
left for the front after issuing a
manifesto in which he says that
Turkey's action opens the way for
Russia to re-occupy her historic
mission on the Black Sea.

The Germans have been making
desperate assaults on the Russian
right wing, and particularly fierce
fighting is reported near Svalva, in
Russian Poland. But Petrograd
claims general progress everywhere,
except along the river Sam, where
apparently no progress has been
made by either side.

CHECK GERMAN ATTACKS.
By Associated Press.
PARIS, Nov. 4, 3:40 p. m.—Gen-
eral Joffre, commander-in-chief of
the French army, has issued a
statement in which he says that the
German attacks on the Russian
right wing have been checked.

TURKISH CABINET MEMBERS RESIGN; WAR IS CAUSE

By Associated Press.
PETROGRAD, Nov. 4.—An official communication from the
staff of the Russian army in the Caucasus, given out here today,
says that Russian troops have crossed the Turkish frontier, driv-
ing back the enemy's advance guards and taking a number of
towns. The text of the communication follows:

"Our troops have crossed the frontier of Turkey and having
driven back the Turkish advance guards. They took possession,
after engagements, of the towns of Zivine, Karakilisse, Passinka,
Ahkady, Boutakh, Khoroun, Myssoun and Arzap. The Turkish
forces retreated after having suffered losses and abandoned their
dead."

NINETEEN RUSSIAN TRANSPORTS SUNK.
By Associated Press.
BERLIN, Nov. 4.—(By Wireless.)—Information was given out
to the press as follows:

"The first encounters on the Turkish frontier in which Turkish
soldiers met Russian forces from the Caucasus resulted unsuccess-
fully for the Russians.

"Nineteen Russian transports sunk by the Turks had on board
1700 mines destined for the blockading of Turkish waters. This
fact proves the hostile intentions of the Russians.

"The Gazette Del Popolo says that the present treatment of
Germans in England is a policy to question, as numerous indus-
tries are conducted by Germans, who would be difficult to re-
place.

"The note of Sir Edward Grey, the British foreign secretary,
denouncing Turkey handed to the Italian government by British
Ambassador, has created in Italian political circles an impression
unfavorable to England, as it shows England's fear of Turkey."

BRITONS BOMBARD DARDANELLES.
By Associated Press.
BERLIN, Nov. 4.—(By Wireless to Sayville.)—British war-
ships on November 1st, says an official announcement issued
here today, bombarded the Turkish port of Akabah and attempted
a landing. The forces re-embarked after losing four men.

Dispatches from Constantinople say that a British squadron
bombarded the Dardanelles forts at daybreak on November 3d.
They did no damage. The figure was an extreme range and lasted
fifteen minutes.

Simultaneously, it is reported, two British cruisers fired a few
shots at the seaport of Jaffa, in Palestine, but retired under the
fire of Turkish artillery.

SHELLING OF DARDANELLES CONTINUES.
By Associated Press.
PARIS, Nov. 4, 3 p. m.—A dispatch to the Havas News Agency
from Athens says that the bombardment of the forts of the Dar-
danelles which was participated in chiefly by the British fleet, was
suspended momentarily, but later was resumed and continued un-
til 10 o'clock this morning. Seventy shells in all were fired at the
Turkish forts.

AMBASSADOR GIVEN PASSPORTS.
By Associated Press.
PARIS, Nov. 4, 3:10 p. m.—Rifaat Pasha, the Turkish Amba-
sador to France, according to the Havas News Agency, asked for
his passports, which were handed to him at Bordeaux this morn-
ing.

TURKISH MINISTERS RESIGN.
By Associated Press.
LONDON, Nov. 4.—A dispatch to Reuter's Telegram Company
from Constantinople, via Berlin, asserts that the ministers of
public works, marine and commerce have resigned.

The Turkish cabinet resignations noted above are undoubtedly
due to dissensions which have arisen regarding the Black Sea raid
of the Turkish fleet which precipitated Turkey's entrance into
the European war.

Osmán Nizami Pasha held the portfolio of minister of public
works, Süleiman El Bustani that of minister of commerce, while
Tschurukula Mahmud was the minister of marine. The cabinet
was formed on June 17, 1913.

PROGRESSIVES SWALLOWED BY OLD PARTY IN EAST

WHITMAN DEFEATS GLYNN FOR N. Y. GOVERNORSHIP

election to succeed Governor Glynn, the Democratic incumbent, by what was said to be a record vote.

WHITMAN PLURALITY GROWS.

As the late returns came in Whitman's plurality increased steadily, and early today it was estimated that he would win by nearly 150,000.

In Pennsylvania there was a huge increase in the Republican vote. Complete returns show the following Democrats elected to the Senate: Oscar W. Underwood, Alabama; Marcus A. Smith, Arizona; James P. Clarke, Arkansas; Dupuch L. Fletcher, Florida; Hoke Smith (long term), Georgia; George W. Peckham (long term), New York; William J. Stone, Missouri; Lee S. Overman, North Carolina; Thomas P. Gore, Oklahoma; Ellison B. Smith, South Carolina; John Walter Smith, Maryland.

Incomplete returns indicate the election of the following Democrats to the Senate: Benjamin F. Shively, Indiana; George Chamberlain, Oregon.

CLOSE RACE IN ILLINOIS.

CHICAGO, Nov. 4.—Lawrence Y. Sherman, Republican, and Roger Sullivan, Democrat, were running a neck-and-neck race for the honor of being the next United States Senator from Illinois, according to returns from yesterday's election.

It is estimated that the returns from the state outside of Chicago give Sullivan 156,715 votes and Sherman 156,677.

Raymond Robins, Progressive, despite a vigorous campaign in his behalf by Colonel Roosevelt, is running a poor third. Robins had the support of all of the Chicago papers, and made the most vigorous campaign of the Progressive vote in the state.

In Chicago the Democrats elected all the county officers.

Incomplete returns from yesterday's election today showed these results:

MASSACHUSETTS. Governor David I. Walsh (Dem.) re-elected by 10,000. Republicans gained Congressional delegation. Republicans seem to have elected most state officers with exception of Governor and complete vote for Governor. Complete vote for Governor, Walsh (Dem.) 206,524; McCall (R.) 196,800; Walker (Prog.) 34,207.

OHIO. Frank B. Willis (Rep.) elected governor over James M. Cox (D.), present governor. Warren G. Harding (R.) elected senator over T. S. Hogan (Dem.). Elected 12 Republican and 10 Democratic members Congress.

DELAWARE. Governor Joseph P. Cannon, who was defeated for re-election two years ago, was elected today out of the six counties in his district.

WHAT CAUSES COLDS? This question and "How to Prevent Colds" is asked a thousand times every day. A cold is really a fever, not always caused by the weather but due to a disordered condition of the blood or lack of important food-elements.

In changing seasons food-elements are essential because they distribute heat by enriching the blood and so render the body better able to withstand the varying elements.

This is the underlying reason why the medicinal fats in Scott's Emulsion quickly overcome colds and build strength to prevent more serious sickness. It contains nature's medicinal fats, so skillfully prepared that the blood profits from every drop, and it is free from harmful drugs or alcohol.

Anderson, the "gentleman burglar," today confessed to a new line of activities when he admitted to Captain of Inspectors Lou Azen that he was the man who last August robbed Ethel Kirkpatrick, better known as Ethel Kirk, a vaudeville actress, and a chain of diamonds in Oakland. ALLIES REPORT PROGRESS MADE

Germans Said to Have Abandoned Prisoners, Wounded and Artillery.

(Continued From Page 1)

The French forces, has sent a telegram to His Imperial Highness, Grand Duke Nicholas, Commander-in-Chief of the Russian forces in the field, the text of which follows:

"We have received with keen pleasure all the dispatches concerning the triumphant march of the Russian armies during the past fifteen days, including those relating the new advance which has just brought them into proximity to the German frontier. I desire to convey to Your Imperial Highness my best congratulations. On our part we have checked the German advance, and by incessant energetic action we are endeavoring to destroy the enemy's forces opposed to us.

"Our situation is good and I hope that our combined efforts soon will lead to final success."

The foregoing dispatch was given out semi-officially in Paris this afternoon.

ENEMY DRAWS BACK.

The French War Office gave out an official announcement as follows:

"On our left wing to the north the situation shows no change as compared to yesterday. The enemy has drawn back on the right bank of the Yser. We have recovered Lombardzyde. The Germans occupy on the left bank of the Yser nothing more than the head of a bridge, half way between Diamude and Niepoort. They have abandoned, in addition to prisoners and wounded men, a considerable quantity of war material, including artillery, which were held inviolable by the mud.

"Between Diamude and the Yser the fighting has continued with alternate advances and withdrawals, but with the general result that the allied forces have made perceptible progress.

"Between the Yser and the region of Arras there has been cannonading and minor engagements.

REPORT ADVANCE.

"Between the region of Arras and the Oise we have made an advance to the east of Lequesnoy-en-Santerre as far as the heights of Parville.

"On the center the German attack which developed on the right bank of the Aisne in the region of Valley and which resulted in our losing the first slopes to the north of Valley and by the north of Craonne, was not continued yesterday. A counter attack by our forces brought again into our possession a portion of the lost ground.

"A violent cannonading and spirited German attacks were repulsed on the heights of the highway Des Dames and in the vicinity of Rheims. There has been no happenings of importance between the Rheims and the Meuse nor in the Woevre districts.

LARGEST BATTERY OF BURROUGHS ADDING AND LISTING MACHINES EVER USED ON THE COAST FOR TABULATING ELECTION RETURNS, THIS ENABLED THE TRIBUNE TO ASCERTAIN THE RESULT OF THE ELECTION SOONER THAN OTHERS. MACHINES FURNISHED BY COURTESY OF D. E. PERKINS, SALES MANAGER BURROUGHS ADDING MACHINE COMPANY, 414 THIRTEENTH STREET, OAKLAND.

TRIBUNE ELECTION SERVICE AGAIN PROVES SUPREMACY

THE TRIBUNE again set the record for service in election returns last night. Connected by direct wire with the main election bureau, where a host of men and a great battery of Burroughs adding machines were at work, the TRIBUNE board at the southeast corner of Eleventh street and Broadway finished every vote as soon as counted on the important local issues and also complete Associated Press reports on elections in every part of the nation. THE TRIBUNE board first told of the election of Nicholas Longworth and the figures on Glynn's New York fight and minor fights in all parts of the nation. Every precinct about the bay and San Francisco was accounted for.

THE TRIBUNE FLASHED SIX RETURNS TO EVERY ONE OF ANY OTHER BULLETIN BOARD IN THE CITY.

Great lines of automobiles jammed Eleventh street, from Broadway to Washington, and the largest crowd on record gathered before the boards. Horns tooted as the returns came in. Traffic was blocked.

While THE TRIBUNE'S news-getting machine furnished a steady stream of returns, a typewriter and sign painter were busy preparing slides for the big screen. There was not a hitch. There was no interruption. THE TRIBUNE bulletin board broke all Oakland records and again proved the supremacy of the greatest news-getting service on the coast.

Kaiser Dines With Staff at Headquarters

LONDON, Nov. 4.—Dispatches published in the Daily Mail give elaborate details of Emperor William's visit to the German headquarters at Thiel, near Courtrai, Belgium, Sunday. With brilliant staff officers, he dined at headquarters and then drove away for an unknown destination.

Soon after the emperor's departure British airmen dropped bombs in the town, doing great damage to the town hall, the Palace of Justice and other buildings and killing two German soldiers.

It has since been reported that the German headquarters have been transferred from Thiel to Ghent, and there are indications of a German retreat in the direction of Brussels.

The steel hulkers will have a 550-ton capacity and as soon as seven of them are completed they will be towed to Pearl Harbor in some of the big cruisers while the remaining five will be assigned to the local naval station. FRENCH SOLDIER BRINGS WAR NEWS

Returns From Europe to California; Found Penniless in Los Angeles.

LOS ANGELES, Nov. 4.—Robert Morris Henry Klein, the young Frenchman who returned to California last Saturday after being in France for three years, was found penniless in Los Angeles. He was wounded, was found yesterday afternoon on the Palisades near Santa Monica in a state of utter exhaustion. He was taken to the Santa Monica police station, and after he had somewhat recovered his strength, he was permitted to go. He was penniless and weak, and it is not known what became of him after he walked out of the station.

He had been weakened by pneumonia and an operation for appendicitis, but it became necessary for him to return to France and report for duty. He was assigned to the Twenty-fourth Infantry Regiment and joined it near the River Somme in the vicinity of Amiens.

During his absence in France during the latter part of September, at one time he stood in a trench in water to his knees for 35 hours. He was almost constantly under fire and in numerous sorties to develop the position of the Germans. Finally he was knocked down by a fragment of shell that whizzed past his face, carrying away a bit of the bridge of the nose.

In the course of dressing that slight wound a surgeon discovered his utter unfitness physically to serve longer in that strenuous service. He was invalided back to one of the hospital towns and there given his discharge, with transportation money to take him back to Paso Robles.

If you care for pretty, soft hair and lots of it, surely get a 25-cent bottle of Knowlton's Danderine from any drug-gist or toilet counter, and just try it—Advt.

GRASSHOPPER BELT FROZEN IN GLACIER

GILLESPIE, Mont., Nov. 4.—Forest Supervisor J. C. Whitman and Fred Ruxton, who planned to plant a flag on the summit of Granite Peak, 12,950 feet high, the highest point in the Beartooth range of mountains, were compelled to return to this city without accomplishing their purpose.

Whitman, who is acting supervisor of the Beartooth national forest, has forwarded specimens to Washington confirming the "myth of the grasshopper glacier."

"Actually," asserts the forester, "there is a belt of frozen grasshoppers running the entire length of the glacier at the head of West Rosebud, ten miles from Cooke City. The glacier is a mile long and from a distance it can be seen that the grasshopper belt extends the entire length of the ice field. How far into the glacier the mass of hoppers extends it was impossible to tell.

The grasshoppers lie so thickly that a person can not step without treading upon them. Insect heads, legs, and a kind of black debris are scattered all over that part of the glacier. When the wind blows, these fragments are scattered all over the mountain top. You can plainly see that the mass must extend some depth into the glacier."

CLUBWOMAN SOLVES ECONOMIC PROBLEM

Dr. Von Adelung Gives Interesting Talk on His Experiences at the Outbreak of War

Condemned to raise \$1 toward a club otherwise he would have been refused. Other nations were also paying toward different ends. "I consider it the most dangerous heresy of my time," said Dr. Adelung, "that people should prepare for certain inevitable results and then expect by prayer to have them averted."

HOME CLUB. Home Club members and many guests will extend a warm greeting to Mrs. Daniel Easterbrook at the dinner and reception tomorrow night when Mr. and Mrs. Frank Leach will preside as host and hostess. For the special event there will be an orchestra of bridge and of dancing to a stringed orchestra. Among those present will be:

Mr. and Mrs. H. H. Wadsworth, Mrs. Daniel Easterbrook, Miss Smith, Dr. and Mrs. Goodspeed, Mr. and Mrs. R. D. Jones, Mr. and Mrs. George Ellis, Mrs. Barker, Mrs. C. Gayles, Mrs. E. McHenry, Mr. Herbert Gayles, Mr. and Mrs. H. K. Jackson, Miss C. Lee, Mrs. Edward Remillard, Mrs. Shinn, Miss Lucy Shinn, Mr. and Mrs. Bryan, Mr. and Mrs. George Rothenger, Mrs. David Gade, Mr. and Mrs. Charles Hoag, Mrs. Grace Burdard, Mrs. Gordon Stoll, Mr. and Mrs. Robert Lee, Mrs. D. E. Ellis, Miss Marion Ellis, Mr. and Mrs. G. B. Bray, Mr. and Mrs. C. J. Waterhouse, Miss Annie Florence Brown, Dr. and Mrs. Sili, Mr. and Mrs. Eugene Withrow, Mr. and Dr. Aldrich, Mr. and Mrs. Waddell, Judge and Mrs. Everett Brown, Mr. and Mrs. B. F. Hubbard, Mrs. George Newton, Mr. and Mrs. E. Walsh, Mr. and Mrs. H. Reed, and Mr. and Mrs. Harry G. Miller.

EBELL CLUB. In a graphic recital of his "Personal Observations in the War Zone," Dr. Von Adelung will give a talk describing the actuality of war very clearly to the Ebell Club yesterday afternoon. Dr. Von Adelung was in Germany when chaos broke loose in Europe. With his family he had gone up the Rhine into the Teutonic country before the outbreak of hostilities. He had been in the Rhine when he had been impressed by the antiquity of militarism expressed by the old castles and strong bridges along the great commercial waterway, and he had been also deeply impressed by the wealth revealed by the fertile fields and towns sloping down to the river.

There had been rumors of war. So all the way the Oakland traveler put the question to Germans of all classes, "Do you want war?" With but one exception they answered "No." "So I am convinced," asserted Dr. Von Adelung, "that the German rulers did not want war."

Stopping in the Black Forest and in still another German city, the traveler was advised to get a passport. One consul suggested that he take his family home instantly. Nevertheless, the Von Adelungs continued on their way to Munich. One of the ironic details noticed during the early days of the war, was a marvelous health preserving expedition carried out with German thoroughness, and with charts showing the latest scientific method for taking care of these very human beings who were to die in a few days.

On the train were civilians, four carloads, waving good-bye to women who stood on the platforms of the stations. There was vociferous cheering, but none smiled. In Munich, living in a hotel opposite the palace of the king of Bavaria, Dr. Von Adelung and his family were welcomed to the king's garden night after night by the excited Bavarians, after mobilization had been ordered.

At this point Dr. Von Adelung traced the causes that led to the war, remarking that under the circumstances he had been justified in working along a legitimate line in developing military to the highest efficiency.

In Munich, the 2000 Americans found themselves decidedly inconvenienced by the impossibility of receiving mail or money, by the necessity of doing all their telegraphic business by means of using on postal cards in the same language. On all the streets bulletins were posted, and all Germans were looking for spies, much to the anxiety of perfectly innocent Americans. Dr. Von Adelung described seeing a crowd swirl around a woman, a well over her face, when a voice cried out, "A Russian spy!" Someone seized the veil, the hat and a wig came with it, and there stood a man. The crowd fell upon the masquerader tooth and nail. "That night he was shot," he added.

Attaching himself to the consulate, where there were not half enough to handle the critical situation, he established a registered card system to help people in identifying themselves and to find their relatives and friends. But the most dramatic note in all he saw or heard was the constant march of the recruits through the streets.

Day after day thousands of young men, the flower of Germany, poured in from the country, swinging their belongings in a handkerchief, and with flowers on their coats, where the women of Munich had pinned them. "Always they were singing," Dr. Von Adelung said. "And when they came out again from headquarters, soldiers in uniform, with iron-shod shoes on their feet, still they were singing. There was always 'Die Wacht Am Rhein' and one song in English meaning 'My Body Belongs to the Kaiser, and My Soul to God.'"

Following Dr. Von Adelung's intensely interesting and dramatic recital, William Day Simmons addressed the club on "Praying for Peace While Planning for War." While he considered the effect of the Peace day beautiful, and of both psychological and educational value, he declared it an evidence that we were still in a state of mind that was not ready to think that massing prayers might prove the infinite to grant what might.

PIMPLES ON HEAD ITCHED AND BURNED

Baby's Head Covered. Kept Spreading. Would Scratch and Fret. Cuticura Soap and Ointment Healed.

Tell City, Ind.—"My baby's head was covered with sores and the sores were so bad it began with pimples and he would scratch his head until it would bleed and then scab over and keep spreading. He would claw his head and fret it itched and burned so and I was afraid he would never have any hair on top of his head again."

A friend recommended Cuticura Soap and Ointment to me. I asked our family doctor and he said, 'Yes, go right ahead and use them.' We got one cake of Cuticura Soap and one box of Cuticura Ointment and they healed him from the first. I would wash him with Cuticura Soap and warm water and then rub the Cuticura Ointment on his head with my fingers and great drops of sweat would come out. The sores would become soft. In a few days his head did not seem so itchy or bother him in the least and before he had used one cake he was healed and he has a fine growth of hair. It was worth many times the cost." Less Than a Cent

You may know a woman who has a reputation for making delicious cake, biscuits, etc.,—who seems to hit it right every time.

You may also know a woman, who, no matter how painstaking, can't seem to get the knack of successful baking.

Both use the same butter, same eggs, same flour and sugar. What is the difference?

Very likely it's all in the baking powder. Undoubtedly the woman with the knack uses Royal Baking Powder, and the unsuccessful woman uses an alum baking powder thinking it cheaper.

Yet the difference in the cost of a whole large cake is less than a cent. It is economy to use

SIX HOURS FOR TRUCK TWO DAYS FOR HORSES

In a trip from San Mateo to Los Gatos, a KisselKar Truck, loaded to its capacity with furniture, made the round trip in about six hours' actual running time. The owner of the truck, J. B. Peckham of San Mateo, says that he had in the past made the same trip with a double team of horses. It took two days, with the added expense of the horses' stabling and driver's hotel bill, and two days more for the horses to "rest up" after the run.

COSTIVE BOWELS, HEADACHE, COLDS, TAKE CASCARETS

No Headache, Sour Stomach,
Bad Cold or Constipation
by Morning.

Get a 10-cent box now.
Furred Tongue, Bad Colds, Indigestion, Bloating Stomach and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like carbonic acid in a tight barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret tonight will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months. Millions of men and women take a Cascaret now and then to keep their stomach, liver and bowels regulated, and never know a miserable moment. Don't forget the children—their little insides need a good, gentle cleansing, too.—Advt.

Mitchell said he shot in self-defense when assaulted by a crowd of men, but others said the trouble arose when officers attempted to take from Mitchell a gun he was carrying. Mitchell was arrested.

The wire from the navy department stated that the detention of Major Robinson was a mistake. The major is under orders from London to report at once for duty.

FACE CHARGE OF SMUGGLING ALIENS

Two Accused of Bringing
Chinese Laborers from
Mexico Are Arraigned.

LOS ANGELES, Nov. 4.—Charged with conspiring to smuggle Chinese laborers into the United States from Mexico, Frank Grand, member of a family well known on York Heights, Los Angeles, and Pablo Vinas, a Spaniard of San Diego, were arraigned before United States Commissioner C. V. Williams. Their preliminary examination was set for November 12.

Similar complaints are on file against Walter Grant and Hyman Brant, youths who now are held in the Orange county jail on the technical charge of grand larceny, while awaiting trial on a charge whose name is withheld by the authorities, and who is expected to testify against the others, also is involved.

According to local federal immigration officers, the five figured in a general conspiracy to smuggle Chinese across the border from Mexico. In September, it is said, Grant and Brant were induced to hire an automobile for a trip which they were told would mean "easy money" for them.

They were said to have gone to San Diego, where they met Vinas. Later, it is alleged, they went to a spot near the Mexican line, where they found two Chinese, whom they brought to Los Angeles.

JUDGE MELVIN PAYS FOR "JUICE" USED BY CITY

SAN FRANCISCO, Nov. 4.—Although Justice Henry A. Melvin of the State Supreme Court was not running for office yesterday he contributed, in an indirect way, to the election expenses. As a matter of fact, Judge Melvin might, if he happened to be of an unusually thrifty mind, send in a bill of \$1,000 for the city, although as he is a philanthropist, his contribution was of a purely philanthropic nature, and that he had no designs upon the city treasury. Here is how it happened.

GEIER'S OFFICERS STILL DETAINED

Held at San Francisco Despite
Consular Protest; Vessel
at Honolulu.

SAN FRANCISCO, Nov. 3.—Despite the protests of Baron von Shack, acting German consul-general, the two officers and petty officers of the German gunboat Geier, who were detained here on their arrival yesterday from Honolulu, aboard the liner Korea, were still held today by Rear Admiral Bond of the United States cruiser Cleveland, under orders from Secretary Daniels. Major D. S. Robertson of the British army, under orders from London to report for duty, was released on parole at the same time, was released from his obligation. A message from Secretary Daniels said his detention was a mistake.

The little German gunboat Geier put into Honolulu for repairs, which are being effected there now. When they are completed she must either interfere for the duration of the war or meet the Japanese battleship Hizen and the cruiser Avama, waiting outside the territorial limits.

These repairs are about due to have been completed now, and though newspapers from Honolulu have quoted the Geier's officers as saying they were prepared to make their ship their coffin, the arrival here of members of her complement seemed to indicate a determination to discontinue, rather than to fight.

The officers detained are: Lieutenant Ekan Pretzell, Lieutenant William Sauerbeck, Paul Streiber, chief runner, and Friedrich Pahrnick, petty officer. Admiral Bond could not see the status of his prisoners. G. Davis, collector of the port, said they were not deserters, but had been held as officers on the active list of a still active warship. The Germans themselves said they were on a furlough.

HOLTKAMP LOSES AT 3-CUSHION BILLIARDS

F. J. Montgomery played a fast game for a longer in the three-cushion tournament at Wright's parlors last night and defeated W. Holtkamp by a score of 15 to 10.

The latter had 20 to make, but his pocketed ball started at 11 o'clock, and he was the fourth man to be eliminated by losing two games.

The rest of the week will be taken up with the match at pool for the Pacific Coast championship between George Kirkland of Los Angeles, the present titleholder, and Arthur Kreshel, better known as the "Seattle Kid." Tonight the opening game of 150 points will be played, starting at 8 o'clock, with free admission.

Two more sessions of 150 balls each will complete the first half of this, the most important contest of its kind ever played on the coast, and the balance of 450 points will be divided later on in Los Angeles. Kreshel has been in diligent practice at Wright's parlors in San Francisco, and has made the high score of 57, which is even the record for this championship style of pocket billiards.

NEW YORK, Nov. 4.—Perhaps the most unusual method of voting used in yesterday's election was that invented by a former traffic policeman who is blind as a result of having been kicked by a horse. He procured a sample ballot the same size as the regular ballot. Holes were cut in the sample ballot in the squares where the former's blue coat wished to mark his crosses. Entering the polling booth with the regular ballot the blind voter placed the sample over it and marked his crosses through the holes.

complete the first half of this, the most important contest of its kind ever played on the coast, and the balance of 450 points will be divided later on in Los Angeles. Republicans Win Great Victories.

With the exception of California and the irreconcilable Democratic States of the South, the Republican party made great gains in the election of yesterday. The Progressive party has been defeated in every State except this one. Despite the efforts of Roosevelt and others to defeat Penrose in Pennsylvania, he has been triumphantly elected by a mighty plurality. Afford Pinchot, running against Penrose a poor third. New as followed the example of Pennsylvania and wiped out the Progressive party in the election of a Republican governor and States Senator.

Indications at this writing are that the Democratic majority in the lower house of Congress has been reversed, or so materially reduced as to put the Republicans in a position to thwart further assaults on American industries by tariff reduction.

Not the least significant feature of this condition of affairs is the result in New Jersey, which appears to have elected a Republican Congressman and a Republican Legislature. This is the first time since the Civil War that a Republican has been re-elected after two years of retirement, and Congressmen McKinley, who went down in the landslide two years ago, will undoubtedly win in this contest.

Her victories are reported along the line of a character calculated to make Republicans jubilant, for they augur well for the party in the national contest two years hence. California has re-elected Hiram Johnson governor for four more years. The figures so far counted appear to indicate that he has a large plurality over his nearest opponent.

While figures are not available for a complete totaling of the United States Senator in California, THE TRIBUNE believes that when the final vote is in, Joseph R. Knowland will be elected. All indications point to such a conclusion.

Concerns the other candidates little can be forecasted at this time owing to the slowness of the count. The same is true of many of the amendments, although it is conceded that wide Prohibition has been decisively defeated.

It will not doubt be more than twenty-four hours ere the returns on all propositions and candidates are received, perhaps longer.

Winning Nations Demand Foodstuffs.

According to figures by the Department of Commerce, the demand for United States foodstuffs by European nations increased during the month of September and may be expected to still more. Nations at war "must eat" and while production is limited in their own areas, they must of necessity buy.

Many trade currents broken by the upheaval abroad have been turned to this country. France is demanding immense quantities of fresh beef, the other countries are asking for flour and sugar. Other foodstuffs, including bacon and dry salt pork, corned beef, etc., are in demand.

The value of foodstuffs exported during September was \$68,490, compared with \$34,786,624 in September, 1913. Wheat made up 89,250,000 bushels sent away as compared with 100,000 bushels a year ago. This increase is due in a large measure to a great shortage in Germany and Russia. Coincident with this is the information that Brazil took 580,000 bushels of wheat, the Latin-American countries demanded nearly twice the amount of flour usually consumed. Beef imports multiplied eleven times.

Seven millions of pounds were sent across the Atlantic in September, in addition to 3,000,000 pounds of canned beef.

An increase in exports of refined sugar was enormous and may be expected to continue for some time. It was the advance in price a few months ago was made. It is the holders of sugar were aware of a coming demand and had prices to keep down consumption at home in order to take advantage of increased business abroad. The shipments totaled 773 pounds as against 3,924,540 of a year ago.

War has caused great rejoicing among the salmon packers. Foreign sales have doubled. There were 4,569,811 pounds exported compared with 2,849,669 a year ago. Rice increased from more than 1,000,000 to more than 10,000,000 pounds, oats 18,928 pounds to more than 10,000,000 pounds, while barley multiplied ten times, the shipments being 2,750,000 pounds, with demand predominating.

In the face of all this the revenues of the government are insufficient to pay its expenses and we are called upon to contribute to a stamp tax. Still the result cannot be anything but a blessing, as the incoming tide of money demanded in payment for foodstuffs exported will aid business to a limited extent, although not so much as if the duties under the old tariff law had been undisturbed and manufacturers could have kept pace with the demand from the soil. Then we should have had a prosperity talking about.

Feeding Destitute Belgians.

From all over the United States come reports of movements on their object the aid of the destitute and starving Belgians. Between 6,000,000 and 7,000,000 have no place to call home, very little to eat. It is related that the supply of breadstuffs is exhausted and the poor are subsisting on a diet of vegetable exclusively.

A great heart of the American people is beating in sympathy with the women and children and old men—the younger men are all on the firing line—and ships laden with provisions are dispatched as rapidly as possible. The Pacific coast is playing a part in the relief of the distressed and in common with the people of the East, is sending or about to send a ship load of food through the canal.

This connection it seems to THE TRIBUNE that the plan to supply food and trivial articles for the little ones is not the best one, at least substantial supplies of food and clothing should be substituted. Canned goods, such as pork and beans, meats, etc., will be especially desirable articles. Flour and smoked beans and other legumes, dried or tinned, are staple and can be distributed with ease.

Remember the babies too. There are many brands of condensed milk that are adapted to the needs of the little ones in arms. Too much of this cannot be exported for the relief of the distressed in arms. Also quinine. The cold, rainy season will soon be upon us and supplies of this drug will be needed by old and young.

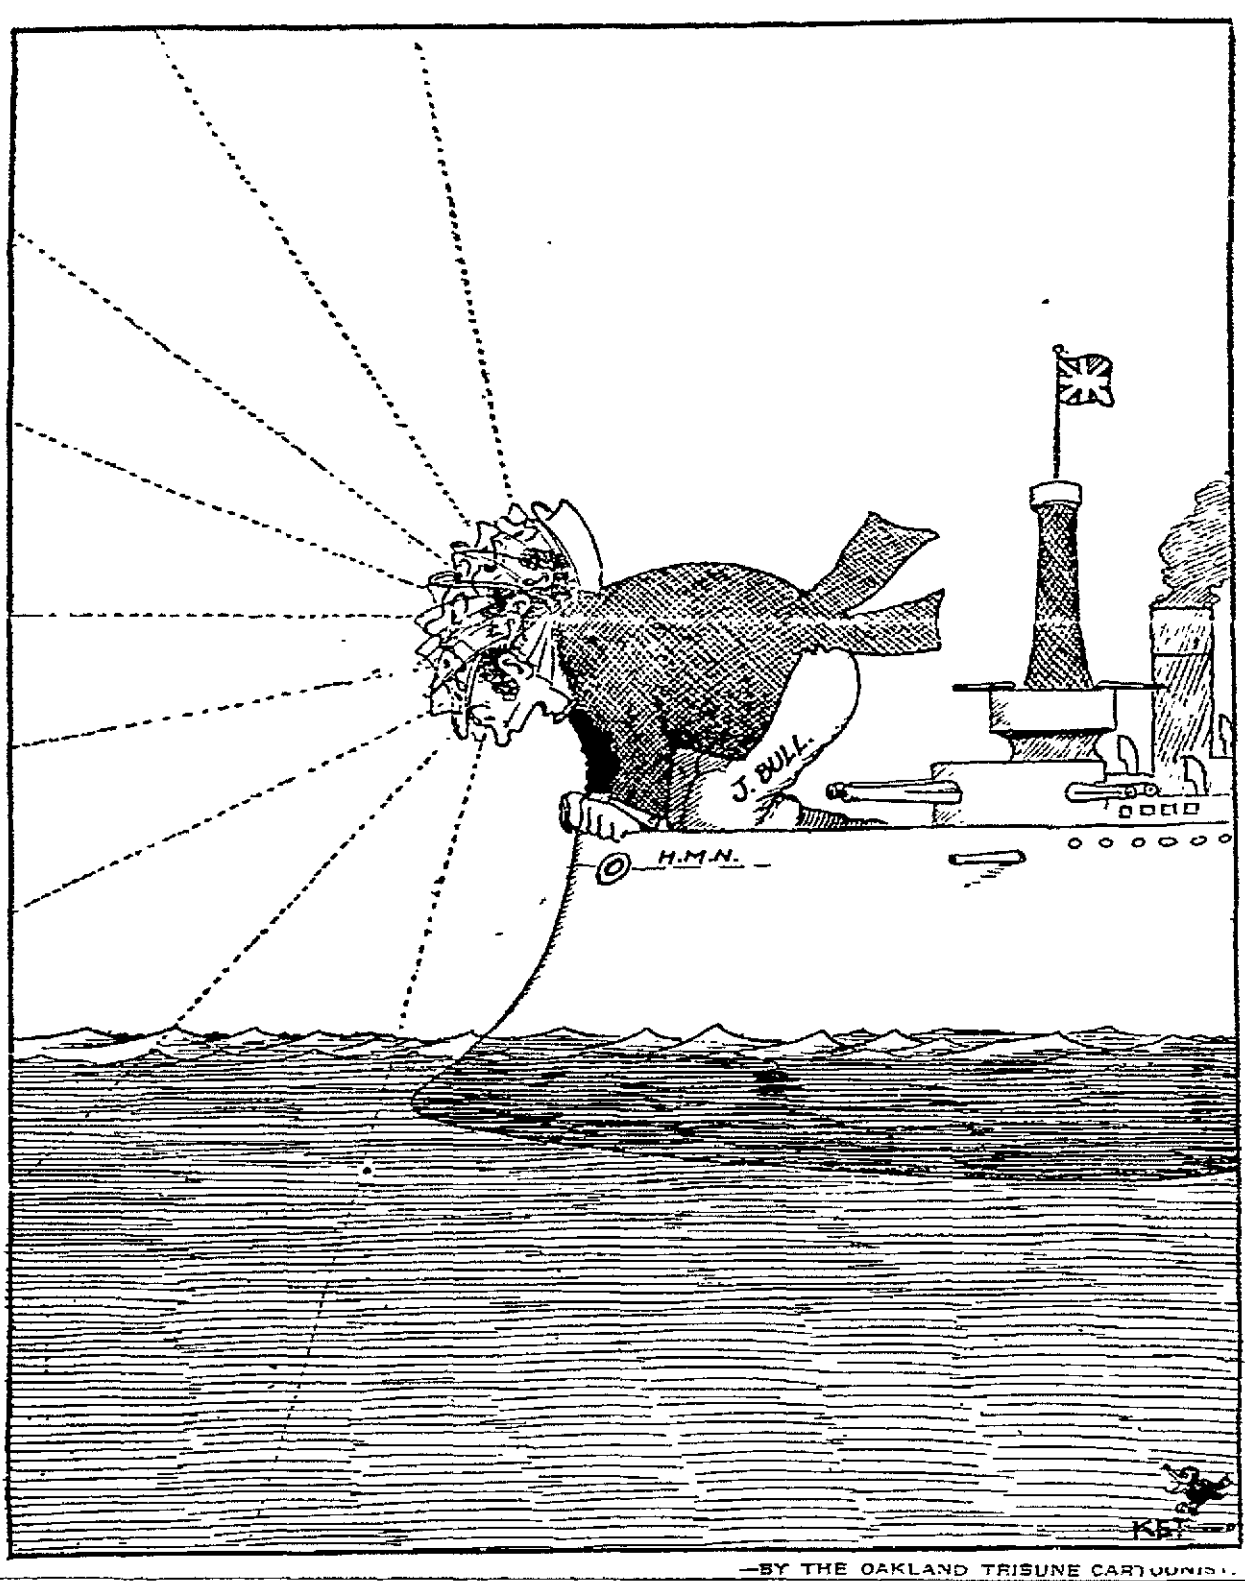

Those who contribute should be careful to give substantial goods of all sorts. Warm, plain clothing, stout shoes, well knitted and stockings, thick shawls, hoods, not straw bonnets or hats, but with flowers. The winter is near for the Belgian people. The season of frost and snow there will be much misery. Remember the dollies or the jacks-in-the-box; spend the money in kind and warm attire. It is not toys the young ones want but things to eat and wear.

War has been peculiarly unfortunate in this war. Because of the use of the country as a strategic position, it has been overrun by troops of all the armies, its cities laid waste and its fields trampled. It is a good thing for the people of this country who are far away from the scene of the strife, entangled by no alliance or warring powers, to be able to contribute something for the relief of the lives of the non-combatants who are in distress. Perhaps long some of the others may require our aid also.

Remember it is more blessed to give than to receive and that he who gives promptly gives twice, and make some small contribution to the cause of the Belgians.

Looks very much as if Mexico will have a terrible tangle to deal with when she attacks the problem of what to do with her ex-pan-

JOHN BULL'S SOME BUSY MAN!

—BY THE OAKLAND TRIBUNE CARTOONIST—

Fire Prevention Plan.

People who delight in the educational features of the "movies" will be glad to learn that most of the manufacturers of films have decided to permit them to be utilized on behalf of fire protection and that an Oakland man, Willard Done, assistant general counsel for the National Board of Underwriters is entitled to credit for the suggestion.

Noting that the moving pictures of great conflagrations were always featured, Mr. Done decided to ask the makers if some plan could not be adopted to tell the audiences the causes of the blazes. His request was acceded to almost unanimously. Within a short time every fire film will be followed by a brief statement reciting its cause and how it might have been prevented.

This will be instructive to a degree. Fires are many times caused by negligence of a trivial character. It is related that the destructive blaze in Chicago was the result of Mrs. O'Leary's cow kicking over a lamp. Mrs. O'Leary was late in milking and instead of using a protected lantern, took her kitchen lamp to the stable. "Bossie" upset it and a city was destroyed and hundreds of millions in property consumed. In this State we all realize the destruction of forests due to the negligence of campers and hunters. Other States have similar experiences. Traced to their source it is learned that nearly all fires are preventable in character and might have been avoided had common caution prevailed.

The United States fire losses exceed a billion each year, and all this property might be saved if people exercised the right sort of care. If the lessons taught in the "movies" have only a part of the effect the promoter designs, a great saving will result.

Lieutenant-General Adna R. Chaffee, retired, who died in Los Angeles November 1, was one of the examples of success possible in the United States to a man who possesses the grit and determination to do for himself. General Chaffee rose from the ranks to the highest military distinction conferred by this government, save one. He filled every position from private to chief of staff. General Chaffee enlisted in the war of the rebellion and served to its close, entering the army from private life. In connection with his case it may be noted that Lieutenant-General Nelson A. Miles also entered the army from private life, although he started as a second lieutenant in a New York regiment. Miles was a major-general commanding a division at 26, was with Hancock at the "right" at Fredericksburg and was described by Hancock for his services that day as being "worth his weight in gold." It is doubtful if in any other country these two men could have attained such exalted rank through the sheer force of ability displayed and that is what won for both their epaulettes.

Just as we got used to these Russian names, England carries the war into Arabia and now we have to learn the spelling lesson all over again.

Direct legislation may have its advantages, but those of us who voted on the forty-eight propositions yesterday are perfectly willing to pass the law making function up to the legislature.

Winston Churchill, in his letter to Prince Louis of Battenburg, says the war in Europe is no ordinary war. Which leads to the inquiry as to what an ordinary war consists of?

MUCH IN LITTLE

Jamaica has been keeping a record of all incoming letters having shortage in postage and found that the United States was the chief offender in this respect.

A Cairo correspondent writes to the Manchester Guardian that owing to the falling of the Nile Egypt will have to import nearly all her rice this year. The Nile has not been so low for nearly 100 years, and the facilities for water storage have been insufficient to relieve the distress.

German East Africa has in the course of 15 years built up an industry in sisal hemp producing for export to the annual value of \$3,000,000. The better organized plantations are earning 25 to 50 per cent on the capital invested.

The Cuban pavilion at the Panama-Pacific International Exposition will be two stories in height with a tower at one corner. On three sides will stretch wide verandas to the Cuban plantation haciendas, and in the center of the building will be a large glass-covered patio with the gardens of Cuban plants, trees and flowers. The building will be 34 meters long by 33 meters wide.

A novel usually ends with the marriage of the hero and heroine, just as if that was their finish.

WHY IS IT?

When light falls on a white dress or a white coat, the white garment throws back nearly all of the light that falls upon it, and the cloth absorbs almost none of the heat that comes to them from the sun. Black is not a color, as you know, and it is black because it does not send back from the surface the light that falls upon it. On the contrary it absorbs this light and also a great deal of the heat that comes with it.

We change from light to dark clothes when cold weather begins because we want our cold-weather clothes to hold all the heat that comes to them from the sun. Black is not a color, as you know, and it is black because it does not send back from the surface the light that falls upon it. On the contrary it absorbs this light and also a great deal of the heat that comes with it.

Tells How Vinol Restores Strength and Vitality to the Weak, Worn-Out Ones in Her Charge.

ROSARY HILL HOME, HAWTHORNE, N. Y.—"I have been at work among the sick and poor for nearly eighteen years, and whenever I have used Vinol for run-down, weak or emaciated patients, they have been visibly benefited by it. One patient, a young woman, was so weak and ill she could hardly creep to my door for aid, and was leaning on a friend's arm. I supplied Vinol to her liberally and in a month when she returned to thank me I hardly recognized her. She was strong, her color charming and her cheeks rounded out. These words are uttered from my heart, in order that more people may know about Vinol, as there is nothing makes me happier in the world than to relieve the sick."

Mother M. ALPHONSA LATHROP, O. S. D., Hawthorne, N. Y.

Such disinterested and reliable testimony should convince everyone of the merits of Vinol, our delicious cod liver and iron tonic to build up health and strength for all weakened and nervous conditions, whether caused from over-work, worry or chronic coughs and colds. If Vinol fails to benefit we return your money.—The Owl Drug Co., Oakland, Cal.

NOTE.—You can get Vinol at the leading drug stores in every town where this paper circulates.

MULE VS. MOTOR

There goes the rounds of the press, a test of the weight in automobile material. A good idea is to test more than the mule and motor. A good idea is to test more than the mule and motor. A good idea is to test more than the mule and motor.

Many farms, no doubt, can use engines instead of mules. Many more of them can use fewer mules and save money by doing a great deal of their work with engines. But the motorization of farms will never drive the mule from his agricultural pursuits. The motorization of the machinery of war, which has enlisted the minds of able men of all nations, has not yet ousted the mule from the battlefield.—Louisville Courier-Journal.

FAMOUS CROOK FALLS INTO POLICE CLUTCHES

LONG CHASE
ENDS IN
SOUTHArrested After Many Hair-
breath Escapes From
Police.

After eluding the detectives of the Oakland police force, and escaping in hair-breath slips from San Francisco, William Jones, known in police circles as "The Snake," and also as William Jackson, was arrested in Los Angeles yesterday on a charge of highway robbery, according to information received by the Oakland authorities.

He will be returned to San Francisco to face the charge, the arrest being made on a telegraphic warrant. For some time, it is declared, the man had remained in hiding in Oakland while the police of the state were searching for him. Every police force in California had been notified.

With him was arrested Milton Henry, wanted in Boise, Idaho, for passing spurious drafts. It is charged that he obtained a large sum before fleeing to the Pacific coast.

The arrest of Jones ends a chase of years, during which, several times, once in Oakland, the police missed him only by a few minutes. Jones, it is declared, has served a sentence in San Quentin, and is charged with holdups both in this city and San Francisco. Presentation will be on the San Francisco cases.

The man's nicknames of "The Snake" was applied to him after a sensational escape from the police in San Francisco, when, after a holdup, he led the police by a few blocks, boarded a tug, ostensibly bound for Oakland, and disappeared. He was next heard of in Seattle, but fled before he could be located. Since then he has led the police of different California cities a merry chase, and even left scorching messages behind him for the sleuths to find, according to the stories of detectives.

He was arrested in Los Angeles by Detectives Glenn and Stevens. An officer from San Francisco was dispatched this morning to bring him to the bay region for trial. Should the San Francisco charges fall, he will probably be prosecuted on the Oakland counts.

NAVAL AUTHORITIES JAIL
THREE JAPANESE SUSPECTS

HONOLULU, Nov. 4.—Three Japanese are being held under arrest by the naval authorities at Pearl Harbor, where a large government drydock is under construction. All information is being withheld as to the nature of the charges against them.

Federal, civil, military and naval authorities held a conference here last night, but the nature of their deliberations was not made public. A report that a Japanese aviator had been deterred by the United States authorities from making an exhibition flight here, which gained publication yesterday has been denied by the aviator.

Literary Competition.

UNIVERSITY OF CALIFORNIA, Nov. 4.—A number of students of the university are interested in the prize contest which has been inaugurated by the alumni council of the Newman Club, the organization of Catholic students of the institution. The subject assigned for this year is "The Influence of the Spanish Missions on Present-Day Life in California."

Professors M. C. Flaherty and Professor Henry Moore Stephens have been named as a committee of award. The Irving prize has again been offered this year for the best comic story, sketch, anecdote or parody in either prose or verse. The committee in charge includes Edward R. Taylor, Samuel C. Irving, Professor Walter E. Mace, Professor Edmund O'Neill and Professor C. W. Wells. The former competition is to close February 15, 1915, and the latter on November 20 next.

OAKLAND CITIZENS
TO AID BELGIUMCommittee Undertakes Finan-
cial Arrangements for Ball
to Secure Food Supplies.

Oakland citizens are to take decisive steps to aid stricken Belgium. A committee composed of A. S. Laven-son, M. J. Lawrence, A. Jones, J. F. Cadden and J. R. D. McKenzie have undertaken the financial arrangements and the management of a ball to be given in the immediate future, the proceeds of which are to be distributed to the starving people of the world's most desolated nation.

The ball is to be a society affair, and is to be held at the Hotel Oakland. The exact date has not been decided, but will be within the fortnight.

The money derived from the ball, according to the announcement of the committee, will be expended with Oakland merchants in the purchase of food supplies. The food obtained will become a portion of the cargo of the California Food Ship, which is soon to leave for Belgium.

It is believed that the people of the east bay district will give enthusiastic support to the project. It is a definite effort to aid those who sent help when San Francisco was a mass of charred ruins, and when the inhabitants of the now prosperous cities were in need of the food which the Belgians now demand. It is well known that all of the men who are able to fight bear arms and that there is no one left to till the ground that the helpless women and children may eat. All over the United States has sprung a movement to send food to the seat of Europe's terrible war. Oakland business men have determined that they shall be the first to raise money.

The committee is planning several novelties, of which special dancing exhibitions will probably be a feature of the ball.

It is planned to hold the ball at the

NAPLES, via Rome, Nov. 4.—The eruption of Mount Vesuvius has been augmented because of the opening of a new fissure in the bottom of the old crater. **All Lives Are Lost
in Railroad Wreck**

MESSINA, Sicily, Nov. 4, via Rome.—A railroad train running between here and Palermo was wrecked this morning. The reports received up to the present time declare that all the passengers on board with one exception and all the members of the train crew lost their lives.

A bridge on the line had been washed out by floods. Unaware of this the train crashed down into the river bed and the cars were overturned in the water.

**"JIM" GRIFFIN, VETERAN
REFEREE, RECOVERING**

SAN FRANCISCO, Nov. 4.—"Jim" Griffin, the veteran referee who has officiated at all of the contests held in the prize ring in recent years under the direction of the leading promoter of the coast, "Sunshine" Jim Coffroth, is reported as on the road to recovery at the French hospital today, and hope is being entertained for his ultimate recovery. Last night the word went forth that he was in a precarious condition. This morning, however, following a visit by Dr. C. A. Glover, who has been attending him, the information was given out that he was resting easily and that he had spent a very good night.

earliest possible date, and then to start other ventures. The men at the head of the affair do not believe that Oakland's citizens will fail to respond nobly to the humane enterprise, but feel assured that sufficient money will be raised to materially aid those who are needy.

That this affair will be the most brilliant ever held in the Oakland Hotel is practically assured. Everywhere the movement to start aiding Belgium has grown strong, and the love of the American nation has come out to the little country—scarcely larger than the state of Virginia—which has made such terrible sacrifices.

It is well known that the entire country is in want; in fact, that they are in imperative need of food. The Rockefeller institute has already sent one shipload of food, but no opportunity has been given the general public of California to subscribe to a popular benefit. The Red Cross has made subscriptions, but that is all.

A list of patronesses is being prepared, and will soon be announced.

Nephew of Republican Candi-
date Aigeltinger Arrested on
Murder Attempt Charge.

SAN FRANCISCO, Nov. 4.—Edward Aigeltinger, nephew of Edward H. Aigeltinger, Republican candidate for member of the State Board of Equalization, is under arrest charged with assault with intent to commit murder following the shooting at 5 o'clock this morning of Norman Yates, Eastern news agent, with a stand in front of the Claus Spreckels Building. Yates received bullet wounds in the neck and left arm, and is seriously, but not fatally hurt.

The shooting, occurring as it did at Third and Market streets, in the very heart of the city, attracted a great crowd of citizens hurrying to their work. As Yates fell backward on the sidewalk his assailant was seized by pedestrians and turned over to the police.

Aigeltinger is a news vendor, and he and Yates have had frequent quarrels over the right to sell papers on the corner. It is claimed that Yates ordered Aigeltinger away last night, and this morning a further quarrel arose, during which Aigeltinger drew a gun. As Yates grabbed for the weapon it was discharged twice, both bullets taking effect. The two young men have come to blows on previous occasions, but neither has been arrested before.

After being taken into custody by Officers Cox and Jurgens, Aigeltinger was removed to the Harbor Hospital, where Yates identified him. Yates resides at 635 Geary, and Aigeltinger at the Puritan House.

TALENTED, PRETTY,
SHE LEAVES HOME
TO EXPLORE SOUTH

SAN FRANCISCO, Nov. 4.—Thrilling for adventure and anxious to explore the southern portion of the state, about which she had heard so much, Miss Lucille Burdick, an 18-year-old girl and a talented musician and singer, left home early this morning, leaving a note for her parents. Miss Burdick is the daughter of Edward S. Burdick, accountant with the Moore & Watson wholesale druggists company. She has been studying music since childhood, and has aspirations of becoming a concert singer.

She arose early this morning and before the other members of the family were up silently left the home, 658 Hayes street, and presumably took the early coast line train for the south. A search was made and this note found:

"Dear Mamma and Papa: I am leaving today alone on a trip through Southern California. I have saved the money given me from time to time by papa, and when that is gone I will have been able to get employment. Will write soon. LUCILLE."

The girl is exceedingly pretty with brown hair and eyes and an attractive figure. She wore a black suit with a large picture hat, and packed her grip with other clothes. She is 5 feet 10, weighs 155 pounds. She might easily be taken for several years older, and has an engaging and fascinating manner. Her parents are frantic over her sudden departure, which was absolutely without warning. They appealed to the police at once, explaining that their daughter had only one young man acquaintance and they do not believe that she could have eloped.
